# GETTING STARTED

## Suction Lip Setup

---

Attach the suction lip to the suction head.

## Orga Stick Setup

---

1. Adjust the Orga stick by bending it to the desired angle.
2. Lubricate the Orga stick.

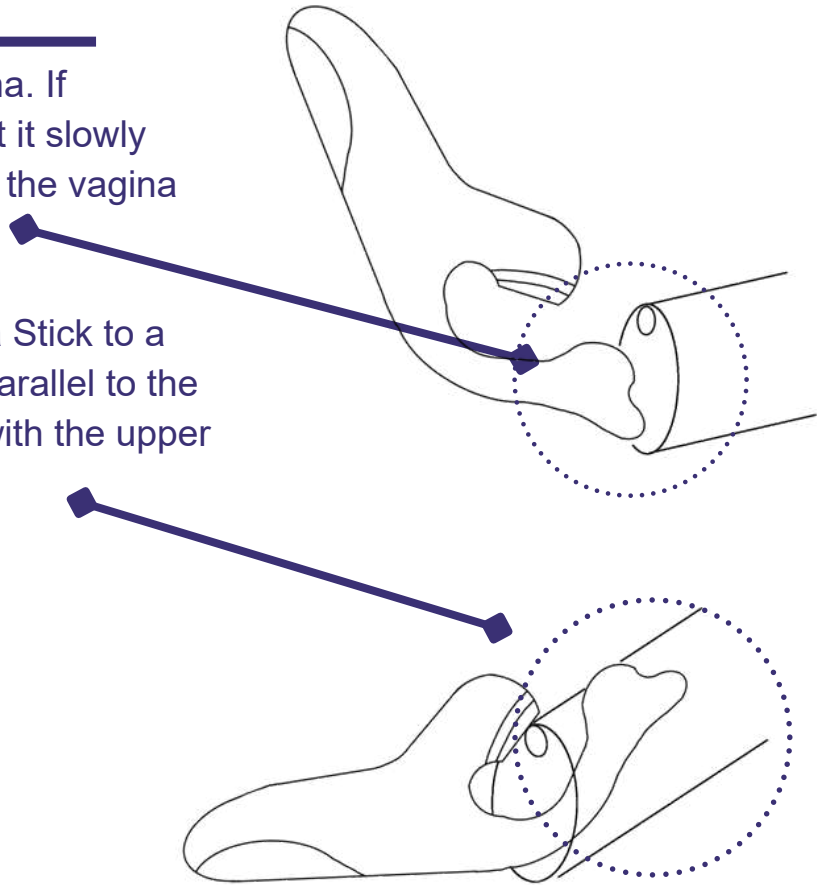

# HOW TO USE

## Insertion

---

Insert the Orga Stick into the vagina. If inserting it in a bent position, insert it slowly with the bent tip aligned parallel to the vagina from an upward angle.

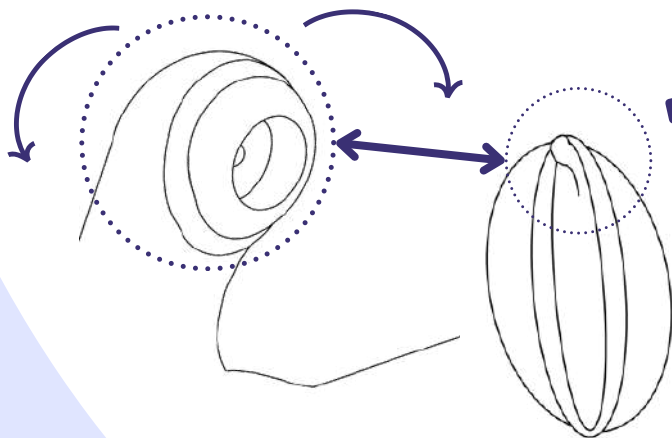

After insertion, straighten the Orga Stick to a flat position so that the handle is parallel to the vagina, allowing efficient contact with the upper vaginal wall.

## Suction

---

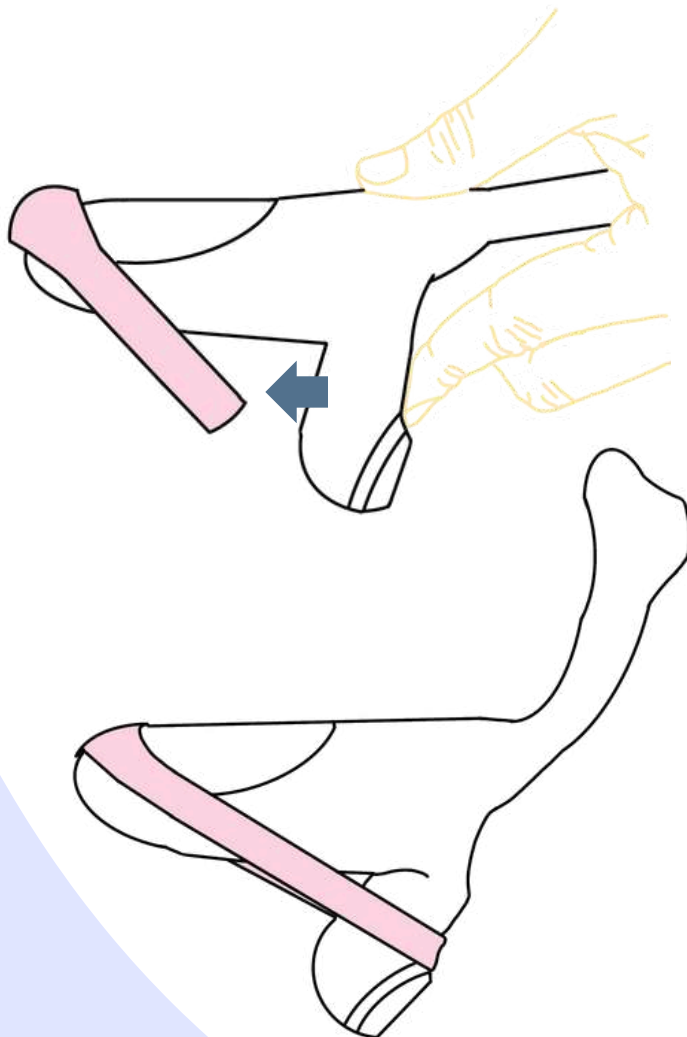

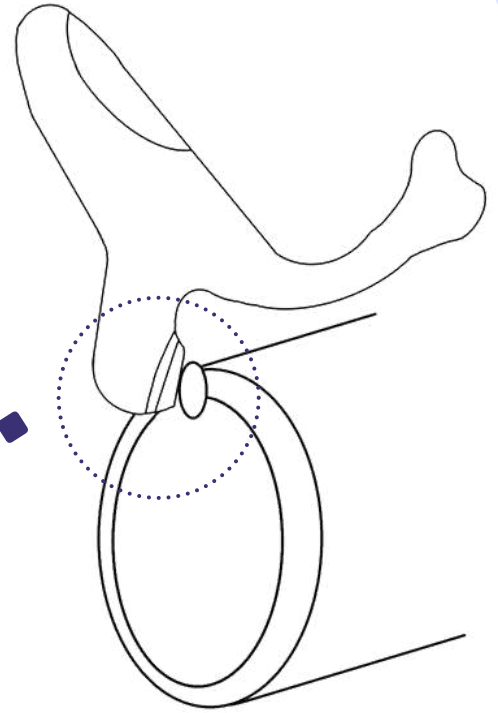

The suction head moves flexibly in all directions. Adjust it to the most comfortable angle.

# HOW TO USE

## Using Suction Mode Only

Bend the Orga Stick 90° away from the suction head.  
Turn on the suction modes only.

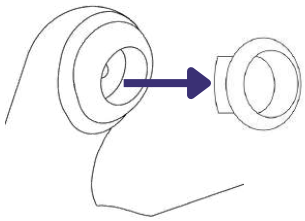

## Using the Silicone Band

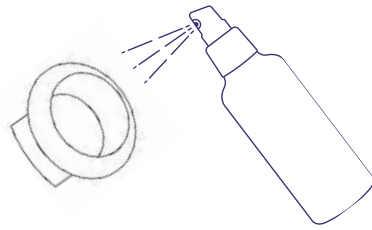

Hook the silicone band onto the rear of the device as shown in the illustration, then attach it to the bent suction head.

# CLEANING

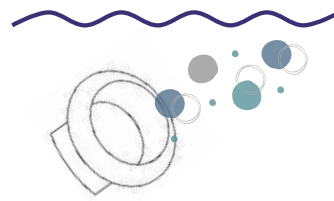

## Suction Lip

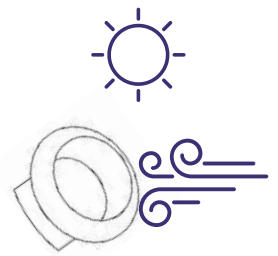

Remove the suction lip from the suction head.

Sanitize the suction lip.

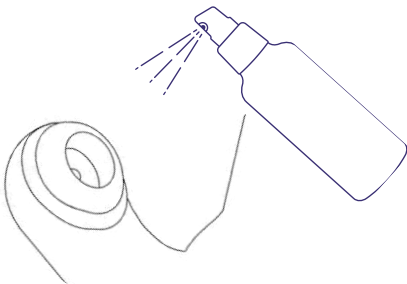

Rinse the suction lip thoroughly.

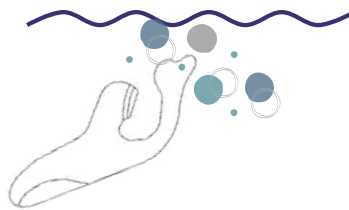

Wipe it clean and allow it to dry completely.

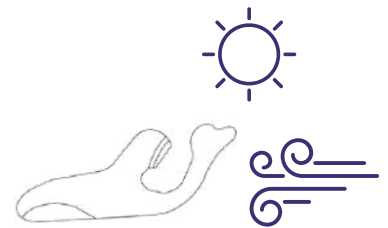

## Device

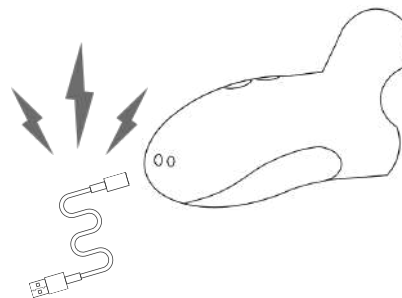

Sanitize the entire device.

Rinse the device with water.

Wipe it clean and allow it to dry completely.

**Caution: Before charging, wipe off any moisture and ensure the device is completely dry.**
